GRAIN INSPECTION HANDBOOK
Book III

PREFACE

Book III, Inspection Procedures, establishes procedures relevant to the examination of stowage areas, inspection of shiplots and combined lots, certification of shiplots and combined lots, inspection and certification of sack lots, and the fumigation of grain in shipholds. This book shall be used by all official inspection personnel and agricultural commodity graders licensed or authorized to perform the functions set forth by this directive.

Book III is effective May 1, 1980.
